

## Working student (m/w): Java programming support for smart workflow automation (CAMUNDA)

### Nokia Solutions and Networks GmbH & Co. KG

Nokia Solutions and Networks GmbH & Co. KG is a leading global enabler of telecommunications services. With its focus on innovation and sustainability, the company provides a complete portfolio of mobile, fixed and converged network technology, as well as professional services including consultancy and systems integration, deployment, maintenance and managed services. It is one of the largest telecommunications hardware, software and professional services companies in the world. Operating in 150 countries, its headquarters are in Espoo, Finland.

### To do

You will be working in a program of Nokia Global Operations with 2 experienced colleagues in Nokia's office in Munich and virtual Nokia team (India, Hungary, France, Finland etc.).

### Scope:

- Collaborate closely with the workflow team members to collect technical workflow connection requirements
- Support 2 JAVA developers in Shanghai in planning and implementation of CAMUNDA workflow connections to relevant Nokia tools
- Supports user testing
- Supports first level support to CAMUNDA workflow community

### Required skills

- Software development experience in Java
- Knowledge of software engineering tooling (Using IDE, dependency management tools like Maven or version control systems like git)
- Familiar with testing software, writing Junit-test and/or test-driven development
- Java EE and/or Spring would be an advantage
- Some knowledge of CAMUNDA or BPMN in general would be an advantage

### Gains

- You will work in an international environment and will be part of a multidisciplinary team implementing workflows automation in CAMUNDA
- You will have a chance to work with an opensource platform which is widely used in the industry and learn BPMN, a standard for business process Modeling
- Additionally, you will get a deeper understanding of Nokia Global Operations processes and workflows automation

### Location:

Munich

### Start time:

01.10.2018

### Duration:

6 + months

### Weekly working hours:

20 hours/week

### Application hints:

Please apply only online and in English
